Commercial Cleaning

Small offices to serviced developments

For over 50 years, commercial cleaning has been at the forefront of our business, from offices to distribution, factory, retail, medical, education or leisure facilities, you name it, we clean it. Our wealth of experience has earned us our reputation as the reliable, efficient cleaner of choice. We provide a 24/7 days a week cleaning service that ensures your business stays clean and hygienic.

Specialist Cleaning

Developed over 50 years through training and experience

Our specialist cleaning division brings clients into contact with a small core of personnel that have particular skills beyond the scope of a general cleaning team. They meet the demands of our clients requiring 'one off', periodic, specialist and sometimes emergency cleaning in the event of flood or other unforeseen disasters.

Core services include deep cleaning, specialist floor maintenance, carpet cleaning, pressure washing and high level cleaning.

Our team are also specialised in TR19/ Duct cleaning and Hazmat cleaning (hazardous material) and are able to remove body fluids, pigeon guano, needles and many other substances that may pose a reasonable risk to health, property, or the environment.

- Initial site survey

Waste & Environmental Management

Achieve your corporate and environmental responsibility with sustainable waste management

We offer a range of services covering trade waste removal, recycling, food waste removal, secure shredding, hazardous waste and diversion from landfill. Our services offer a bespoke waste management package unique to your requirements with a focus on achieving your specific environmental goals.

We can put together a programme for dealing with internal and external recycling and can offer baling and compaction equipment on site to reduce your waste footprint before it even travels.

Accurate environmental reports can also be produced for your business showing tonnages per month produced by your site and a breakdown of each waste stream. By measuring waste on a monthly basis, we can ensure a reduction of your landfill disposal.

Pest Control

Identify and eliminate pest risks

Floorbrite's partners specialise in reactive as well as preventative pest control. Our fully trained technicians are able to deal with all manner of pest related issues, quickly and effectively with minimal impact on your business or customers.

Our services help maintain a safe environment for staff and visitors, minimising the spread of disease and germs. They can also reduce the risk of damage to your premises, fittings and stock, protecting your brand's reputation.

We provide pest control and riddance solutions for rodents, insects and flying insects, bird and small or large mammals. We offer cleaning services involving the removal, treatment and disinfection of nesting material and infected goods and maintain a minimum level of pest activity via a number of pest proofing and deterrent systems.

Plants & Grounds Maintenance

Transform and improve your space

Working closely with supply partners, Floorbrite offer a range of plants and grounds maintenance services tailored to meet your needs. Our specialists look at the issues that influence your interior plants and landscaping, such as, environment, temperature, lighting and humidity. Then, assess your preferences for plant displays, tropical plants and office plants, including: containers, designs and colours that compliment your corporate style.

We also cater for large scale interior landscaping, designed to command attention in public areas such as train stations, airports, shopping centres, office building atriums and schools. For business parks and exterior landscaping environments, we bring ideas to life using sculptural trees and sweeping foliage, adding elegant landscaping to a contemporary business park.

Our full landscaping management service ensures your exterior landscaping looks immaculate right through the year.
